This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

**Usage guidelines**

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

**About Google Book Search**

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. # INTRODUCTION

THE Huguenot Society of America presents in this volume the first catalogue of its books, pamphlets and manuscripts, which have been collected during its brief corporate existence of five years, with the view of establishing in New York a special library of the history and literature of the Huguenots.

These various works now classified and catalogued form the basis of what is hoped and expected to become in course of years the best and most complete library of its kind in the civilized world. It is shelved in the elegant fire-proof building of the library of Columbia College, in the city of New York, where it is accessible at all times for study and reference. Thus far the treasures have been largely presents from the founders of the Society and their friends, although a considerable number of the most rare and valuable tomes in the collection have been secured by purchase. The acknowledgment of the gifts has been attempted in the pages of this catalogue, and has been rendered complete so far as the data can be discovered in the early records of the collection. Any omissions of which the Library Committee are advised will be corrected in the next edition of the catalogue. Henceforward all entries

of additions to the library will be made in the Accession Book with precision, and each new volume will be numbered and placed in its proper class upon the shelves.

The classification of the collection has been conducted with special reference to the needs and convenience of the readers and investigators who are seeking information concerning the Huguenots, their emigrations and various settlements, and their extraordinary influence upon the commerce and the religious and social life of the countries which afforded them a refuge from religious persecution. When time is precious it is desirable that a particular book, or books on a particular subject, may be obtained in the quickest as well as the easiest manner. While this library is necessarily a special collection, many of the books bear indirectly on Huguenot history, and are thus rendered more useful and accessible if placed in a class quite distinct from Huguenot literature.

Under each class the books are arranged alphabetically by the author's name, with the exception of individual biography and genealogy. Anonymous books, if the author is unknown, are entered under the title. No attempt has been made to classify the pamphlets, which are arranged alphabetically by the author's name. The author index represents the entire library, including books, pamphlets and manuscripts.

The number at the right of each entry in the catalogue corresponds to the number gilded on the back of the book. To send for a particular book it is necessary to use this number only. The scheme of classification is given as follows, with the number of volumes at the present time in each class :

## PLAN OF CLASSIFICATION.

The object of the Huguenot Society of America as expressed in its constitution—"to perpetuate the memory and to foster and promote the principles and virtues of the Huguenots," also, "to cause to be prepared and published, when the requisite materials have been discovered and procured, a memorial history of the Huguenots in America, wherein shall be particularly set forth the part belonging to that element in the growth and development of American character, institutions and progress"—has been actively pursued with most gratifying results. It is well known that the history of these Huguenot people is replete with phases and facts of the most interesting

character. It is neither dull nor dry when properly handled. Its scope is almost limitless in variety. It touches, in its course through decades and centuries, not only religion, politics, invention, the arts and sciences, statesmanship and families, but it embraces nearly every branch of learning known to the province of letters. It is colored with romance; it is rich in acts of heroism; it is picturesque in its side lights. Every descendant of the Huguenots in this country has doubtless some tradition, document, or fragmentary record; and, while these alone may seem of little worth, when brought into connection with others they may prove important links in the chain of priceless information. It is fully expected that every Huguenot family in America, from the Atlantic to the Pacific, will sooner or later be represented in the membership of this Society by some of its representative descendants, and it is desirable that every one should awaken to the importance of aiding in the discovery and preservation of family records, church records, genealogical tables, public documents, entries in ancient Bibles, prayer-books, and Huguenot publications, manuscripts, autographs, and personal memoranda, as far as practicable.

The library is open daily from eight o'clock A.M. to ten o'clock P.M.
